

South Wellington Coin Society

Volume 2

Issue 9

October 7, 1998

The Centennial Year, 1967, of Canadian history is a rather controversial year in the numismatical circles. Mike Hollingshead in his presentation at our last meeting on one dollar bills hit the nail right on the head.

The "supposed" limited editions went to millions being printed, rendering

all the issues rather common and of little value. May I add, the same goes for the coinage as well. As history repeats itself, it was not any better in 1992.

Many dealers and genuine collectors are cursing the Mint today. As Mike rightly pointed out, the Mint went out to make a buck and they did!

Thank you Mike for putting this matter into the right perspective. Mike's knowledge and experience is a great asset to our club and I hope he remains as a valued member for many years to come.

Robert Zmija

When I hear the word "token", somehow, I automatically tend to think of years long ago, and it is quite a surprise to find that tokens are still being issued.

Our fellow member Ross Irwin supplied us with some information, rather new to me, and I am sure surprising to many. You will find a detailed description by Ross on the next page.

It would be very interesting if any of the locals could "dig up" something of Rockwoods past history. I am specifically referring to the last item of the page. Happy hunting!

Robert Zmija

FROM THE TREASURER

I am pleased to inform you that I managed to make some progress toward our 1998 medal. I have made a great deal of photographs and also made a new 'woodcut'. My own rendition of what is going to be on the new coin.

Please attend our next meeting and let me know what you think of it. I also would like to inform you that 25 sets of our new coins are already sold.

I have been in touch with the producers and according to the information received, I can assure you that the next medal will be considerably less expensive. The final cost can only be established after they receive our final design. Please reserve some cash because it will not be long before I start collecting the money.

Robert Zmija

DID YOU KNOW:-

If you have 3 quarters, 4 dimes, and 4 cents, you have \$1.19. You also have the largest amount of money in coins without being able to make change for a dollar.

The newly designed (1997) US \$50 bill has an enlarged "50" on the reverse lower right hand corner to aid the low vision community.

NEW GUELPH PARKING TOKEN

Ross W. Irwin

A new token has been issued by participating downtown merchants in the city core to encourage shoppers to visit their store. The token was introduced December 1, 1996. Merchants purchase a roll of 40 tokens for \$10 and offer a token to each customer. The token is worth 25 cents, which purchases 15 minutes of time. The hourly parking charge 75 cents in the main parking lot.

description of the token:

BV: CITY OF GUELPH / PARKING TOKEN, with PARK / DOWNTOWN within a rectangle the centre.

EV: PARKING VALUE / 25 / CENTS / DOWNTOWN / GUELPH with an unidentified logo.

Circular, 24 mm, polished brass appearance, material not known.

Number purchased: 27,000. Obtained from the Lombardo Mint, Sherbrooke, QC.

James H. Addison was in business from 1890 to 1937.
